

Chapter One

Hi, I'm Emil

Hi, my name's Emil. I'm twelve years old. I've got two sisters, their names are Anna and Emilia. My parents' names are Monika and Harry and they are very lovely. We live in a big brown house in Elbląg with our dog, Sparky.

I go to school in Elbląg. I'm a seven-grade student. I'm a really good one, I'm not strong but I'm smart. Because of this teachers like me but other students bully me. I feel very lonely because I haven't got a friend.

As I mentioned, I've got two sisters and a dog. The dog isn't theirs, it's mine. I must feed him every day and go for a walk with him every day after school. I like playing with my dog when I have time and especially when I feel sad. I talk to my dog but he doesn't respond because I think he doesn't understand me.

When I'm at home I must do some household chores, such as: washing the windows, tidying up my room, throwing out the rubbish and watering the plants.

My parents work very hard. My dad's hair is dark and my mum's hair is coloured blond. My sisters have got brown hair, just like mine. My eyes are blue but theirs are hazel.

I love my family but sometimes they annoy me, for example when I want to play a computer game, my mum walks into my room and she tells me to go and throw out the rubbish. I get so angry that I want to disappear just for a moment. I wish I had a book of magic spells!

And so the story begins...
